EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Michael L. Wach (54,417) on July 13, 2005.

The application has been amended as follows:

Cancel claim 15.

Replace claim 40 with the following:

40. (currently amended) A computer-readable medium having computer-executable instructions for performing the steps recited in claims 35:

using an authoring program module to create a lesson comprising a visual resource and an audio resource, the visual resource comprising controls, wherein the authoring program module is operative to:

interrogate a target screen object to identify a screen object control that is not supported by the authoring program module;

extract a screen object bit map from the target screen object corresponding to visual aspects of the target screen object that do not correspond to screen object controls that are supported by the authoring program module;

store the extracted screen object bit map as an indexed resource for later retrieval;

and

create a script instruction within the lesson for associating a function with the screen object bit map;

receiving a request for the lesson from a client computing device;

transmitting the lesson to the client computing device such that the visual resource is synchronized with the audio resource; and

receiving a response to the lesson from the client computing device.

2. The following is an examiner's statement of reasons for allowance:

Claims 16-21 were indicated allowable in the office action dated 10/01/2003, the reason's for allowance presented is hereby incorporated by reference.

Regarding independent claims 1, 22, 35 and 40, the prior art fails to teach the combination of elements as specifically claimed. Although prior art system which include authoring programs modules and delivery features similar to those claimed these program do not include the specific functionality of the authoring program module as specifically claimed. System like that of Pellegrino do include the ability to interrogate screen objects and store bitmap files, they do not include the ability to interrogate a target screen object to identify a screen object control that is not supported by the authoring program module; extract a screen object from the target screen object corresponding to visual aspects of the target screen object that do not correspond to screen object controls that are supported by the authoring program module; store the extracted screen object as an indexed resource for later retrieval; and create a script instruction within the lesson for associating a function with the screen object bit map.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kathleen M. Christman whose telephone number is (571) 272-4435. The examiner can normally be reached on M-F 8:00-4:00.
